20. Teaching-Learning Process:

20.1. Introduction

The institution adopts an Outcome-Based Education (OBE) framework aligned with NEP 2020 to ensure holistic development of students. The teaching-learning philosophy focuses on developing knowledge, skills, and attitudes required for employability, higher education, research, and entrepreneurship.

20.2. Outcome-Based Curriculum

The curriculum is designed through structured processes involving PAC, DAB, BOS, ASC, and Academic Council. It ensures alignment with Program Outcomes (POs), Program Specific Outcomes (PSOs), and Course Outcomes (COs). The curriculum is contemporary, industry-relevant, interdisciplinary, flexible, and integrates AI and emerging technologies. Gap analysis is done by Course faculty to identify the curriculum designed is at par with renowned institutes.

20.3. Teaching-Learning Process

The teaching-learning process emphasizes active, experiential, and competency-based learning. Faculty employ innovative pedagogies such as think-pair-share, storytelling, real-world problem solving, and interactive sessions. Co-teaching, assimilation lectures, and academic planning ensure effective delivery.

20.4. Student-Centric Approach

The institution supports both advanced and slow learners through personalized learning pathways. Proctor meetings, mentoring, and academic support mechanisms ensure inclusivity and student success.

20.5. Outcome-Based Assessment

Assessment is aligned with learning outcomes and includes formative (40%) and summative (60%) components. Formative assessments include mini/mico/ major/ community projects,

open-book tests, and problem-solving exercises, while summative assessments evaluate cognitive skills.

Fig 1. Outcome based Education – Model of Implementation

Here in Fig 1, the processes indicating OBE with Teaching Learning is mentioned, where all points remain connected.

20.6. Continuous Evaluation and Feedback

A robust feedback system ensures continuous improvement. Question bank audits, DUPC reviews, and academic audits ensure transparency and fairness.

Course Outcomes-> Teaching Learning -> Assessment -> Program Outcome Attainment

At PCCOE, each department achieves its Program outcome through organized modules, and every module encompasses a group of courses. Modules Coordinators engage in discussions with their respective courses to finalize attainment targets. If the set targets are not achieved, corrective measures are implemented, ensuring a process of continuous improvement.

20.7. Innovation and Technology Integration

The institution promotes MOOC integration, Incentives for Faculty for developing contents in MOOC, and dual-channel learning approaches for students with Open book and Open ended questions. Policies encourage responsible use of AI and continuous upskilling of faculty.

20.8. Quality Assurance

Regular academic audits, classroom observations, and feedback from students through Proctor, Course end feedback, parent meets ensure quality in teaching-learning processes.

20.9. Conclusion

The teaching-learning philosophy at PCCOE aims to create a holistic graduate equipped with competencies to meet global challenges and societal needs.
